

Nutrisslim®
YOUR HEALTHY LIFESTYLE

Changing your lifestyle can be a difficult task...

Our Story

Each one of us has a different path of life, different experiences and different habits. Some have an easier path, others a harder one. But it is always better if we are not alone on the path to health!

Therefore, at Nature's Finest, we have been working for more than 14 years to offer natural solutions for anyone who wants to overcome the problems and the inconveniences they face, with a healthy lifestyle. Everyone has to start somewhere. So, our job is to make your first steps easier!

How it all began?

In 2010, Bojan Kržič, the founder and owner of the Nature's Finest brand, and Michel Montignac, a world-famous guru of healthy eating, after years of friendship decided to embark on a joint business journey.

Together, under the auspices of Nutrisslim, they launched a line of healthy and dietetic products, and offered them to customers across Europe.

Michel Montignac, also known as creator of the famous Montignac diet, author of more than 30 books that have been translated into more than 40 languages and published in more than 16 million copies, has combined all the wealth of his knowledge into a line of products, which were offered to the wide European population through Bojan's company.

and so, began the successful story of Nutrisslim

patented formula for which Clinical
studies have shown improved skin
elasticity and reduction of Naticol per
day for 8 weeks. Also, skin complexion
consumption of 2,5 g of Naticol per day
for 8 weeks.

BEAUTY HYALURON

Have you ever wondered what keeps our skin radiant, smooth and supple? The answer is simple: youthful skin contains a higher concentration of collagen and hyaluronic acid. As the skin ages, our cells produce less collagen and hyaluronic acid. This results in a loss of hydration, volume and elasticity. Lines and wrinkles appear, and the skin looks more and more dull. If we want to fix this, we have to replace these two building blocks of youthful skin – now this is possible with Beauty Hyaluron!

BEAUTY COLLAGEN

For beautiful hair, skin and nails! Beauty Collagen drink contains collagen enriched with hyaluronic acid and coenzyme Q10 for triple action. It nourishes and hydrates the skin, and in addition, sufficient skin hydration allows the skin to be elastic and prevents wrinkle formation. Vitamin C and zinc help protect cells from oxidative damage, and biotin helps maintain normal skin and hair.

PLANT COLLAGEN BOOSTER

Plant Collagen booster with hyaluron for healthy skin and stimulating natural collagen synthesis. Helps maintain healthy skin, takes care of skin elasticity, contributes to the normal synthesis of collagen, which declines over the years and protects cells from oxidative damage. SUPERFOODS

Super food is food which is extremely rich in nutritional value. Well, more like food it is used as food supplement. The simplest way it can be defined as a food with a high content of health beneficial substances such as antioxidants, minerals, vitamins, essential fatty acids and proteins. Most of these nutrients work as antioxidants on our body, which means that they bind harmful free radicals and eliminate them from the human body. To preserve superfood's nutritional integrity, they must be minimally-processed, using traditional methods or low-temperature technologies.

MALIE

"Smiley kiddo"

My name is Malie. I am seven years old. I spend my days going to school and playing with my friends. I also have a puppy named Coco. She is one of my best friends. We like to lay on the sofa and watch cartoons together. I also like to spend time with my mummy. We cook together a lot. And oh boy, I like all the yummy food she makes. Recently, she came up with something really special. And it's healthy too, she says. Being a lucky little girl, I got the chance to help with her creations. She did the cooking and I did the tasting. So, there I was, sitting behind the table like a princess, trying out all those amazing flavours she was putting on the table. All I had to do is to pick the best ones. For me...and for you! And this is how the story of Malie was born.

PORIDGES

Bio Banana Porridge

I am not a monkey – but I love bananas! ;)

We all love everything with bananas in it and that means this porridge too. It tastes yummy! The Malie Bio Banana Porridge is perfect food for kids of all ages, and surely it makes deliciously healthy food for adults too.

Bio Super Fruity Porridge

Have you ever heard of mulberries? Mulberries are superfood; they have naturally sweet taste. We mixed them together with some goji berries and figs and this is how the Malie Super Fruity Porridge was created.

Bio Choco & Banana Porridge

It makes an excellent breakfast for me and you. It's easy to prepare with some hot water or any type of plant-based drink or milk. Oats are packed with slow releasing carbs that help stabilise blood sugar and they contain more dietary fibre than any other grain. We added powdered cocoa and bananas for an even better taste.

Bio Choco & Coconut Porridge

If I had to choose a perfect breakfast, there has to be chocolate in it. We created a chocolate flavoured porridge with a twist of coconut. The chocolate flavour comes from organic cacao acting as an antioxidant. Trust me, it tastes yummy!

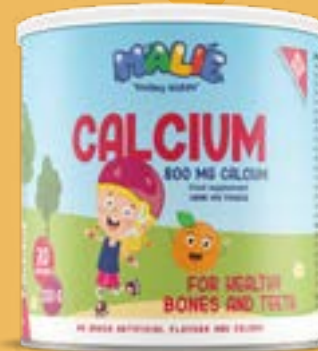

VITAMINS AND MINERALS

- ✓ ORGANIC
- ✓ VEGAN
- ✓ NO REFINED SUGAR
- ✓ WHOLESOME
- ✓ EASY TO PREPARE

Bio Cacao Drink & Calcium

Sometimes, after a long day of playing and learning new things – I just need to have some nice, warm cocoa. We created an organic rice drink with cacao and calcium. Sweetened only with coconut sugar, rich in magnesium and iron, this magic drink keeps my teeth healthy and my bones strong.

Calcium

My mom and dad say that I need a lot of calcium, so I will grow up to be a strong girl! Calcium is a mineral that is very important for maintaining strong bones and teeth. Kids need more calcium as they get older to support their growing bones, which is why MALIE calcium drink is perfect for me! And what's best? It has a great orange taste, with is my favorite fruit!

Vitamin D3

Maintain an optimal level of Vitamin D, even when you don't get enough sun! With a safe dose of 400 UI (10 µg) MALIE vitamin D3 helps support optimal calcium absorption, and promotes strong bones, teeth, as well as proper muscle and immune system function! With a delicious lemon flavor and without added sugars!

Vitamin C

As parents we try our best to insure our children get the all the required vitamins through our diet – but we all know that sometimes it doesn't go as planned.. Now we have a solution! Make sure your kids get the required vitamins to maintain a healthy immune system, and maintain normal function of bones, teeth, gums and skin. Try our new MALIE Vitamin C in powdered form, with a delicious and fresh lemon aroma and without added sugars.
